

KnowBe4

Phishing Simulation Tool & Training Software

Your employees are frequently exposed to sophisticated phishing and ransomware attacks in today's world. This is why SBS has partnered with KnowBe4 to offer the world's most popular integrated platform for simulated phishing attacks combined with awareness training.

Unlimited, On-Demand Training

Ensure that your employees stay alert and prioritize security with unlimited access to on-demand security awareness training.

Customizable Templates

Test your employees with easy-to-use phishing templates.

Point-of-Failure Testing

Efficiently train your employees with point-of-failure education.

Features

KnowBe4 is a platform to better manage the urgent IT security problems of social engineering, spear-phishing, and ransomware attacks and at the same time stay compliant with industry regulations like PCI, HIPAA, SOX, FFIEC and GLBA.

KnowBe4 Features:

- Administrative Management Console
